Our Choice Meats

have the confidence of women who are extra particular in their choosing. It really couldn't be otherwise, for the simple reason that we carry the finest meats which come to town, and if folks can't like these, they really can't like anything. But they do like them, and more abundantly than they ever did, as is conclusively proven by our increasing meat business. People send from all parts of town for our meats. For New Year's dinners we will have the very choicest TURKEYS, DUCKS, GESE and CHICKENS brought to Omaha. Give us your order early and we'll deliver promptly.

TRUST GETS UNITED LEAD

Smelter Combine Now Controls National Company, Says E. J. Cornish.

CONTEST OVER MARKET OF RAW MATERIAL

Carter White Lead Company Amends Its Articles of Incorporation, Extending Time to 1926.

The Carter White Lead company filed amended articles of incorporation in the county clerk's office Friday. The stock was put at \$1,000,000. The duration of the company was extended to December 23, 1926. The number of directors was increased from five to seven.

E. J. Cornish, president of the company, stated that it was expected at the annual stockholders meeting to add F. M. Carter, manager, and Joe Moreman, assistant manager of the Chicago plant, to the board of directors.

Asked as to the statements contained in the New York papers that the United Lead company and the National Lead company, had passed into the ownership of parties controlling the American Smelting and Refining company, Mr. Cornish said:

"I think it is true that parties who control the American Smelting and Refining company own the United Lead company, and now have control of the National Lead company. Whether the two companies will be merged into one, or co-operate by reason of the common ownership of stock, does not yet appear.

"I do not anticipate any difficulty in obtaining our pig lead. The high prices paid in recent purchase of smelters and the phenomenal increase in the market value of the stock in the American Smelting and Refining company has attracted the attention of the mine owners. Most of them have contracts with the American Smelting and Refining company by which the price paid for the lead contents of their ores is the New York price fixed by the American Smelting and Refining company. Should that company, clothed by its contracts with the power to fix the price of pig lead, become also the only buyer of pig lead in the United States, the result to the mine owners might become serious. For this reason several independent smelters are being projected. I believe it will be the policy of the American Smelting and Refining company not to encourage such smelters by discriminating against independent manufacturers of lead products, who today would constitute a very lucrative market for the output of new smelting works."

Queer Sensations
In stomach, back or bowels, are signs of certain dangers, which Electric Bitters are guaranteed to cure. So write. For sale by Sherman & McConnell Drug Co.
